COMPANY PROFILE

Shakarganj Mills Limited was incorporated in Pakistan in 1967 as a Public Limited Company and is listed on all three stock exchanges of Pakistan. Shakarganj is a leading manufacturer of food products, industrial ethanol and particle board as well as textiles. We transform renewable crops such as sugarcane and cotton into value added products comprising refined sugar, textiles, industrial grade ethanol and building materials in addition to generating electricity generated from biogas. The Company has two manufacturing facilities in Jhang District. Our registered office is in Lahore.

Shakarganj Mills, through its interest in Shakarganj Food Products Limited, is also active in production of dairy and fruit products.

Sugar Business:

We have two manufacturing facilities, located in District Jhang. We produce different types of sugar comprising pharmaceutical, beverage and commercial grades sugar as well as soft brown sugar, castor and icing sugar, sugar cubes, sachets and retail packs.

Our combined crushing capacity is of 20,000 metric tons of sugarcane per day which is extendable to 32,000 metric tons per day.

Ethanol Business:

We have distilleries located at Jhang and Bhone where various grades of ethanol are produced. Our products include rectified ethanol for industrial and food grades, anhydrous ethanol for fuel grade and Extra Neutral Ethanol for pharmaceutical and perfume grades. The combined capacity of our distilleries is 280,000 - 300,000 liters per day.

Building Materials Business:

Our building materials division is located at Jhang facility, with a capability to produce 12 x 4 feet sheets of particle board of varying thickness. Our daily production capacity is 30 cubic meters.

Alternate Energy Business:

Biogas power generation facility is located at Jhang, this facility comprises an Effluent Treatment Plant (ETP) and a Power Generation Facility. ETP operations involve biological treatment of distillery waste to produce Methane and a biological de-sulphurization plant to remove sulphur from the methane gas. This gas is then used in the power house to produce electricity which is sold to a utility company on the national grid. The present capacity of this plant is 8 megawatts.

Textile Business:

Located at Jhang, this cotton spinning unit produces carded cotton yarns ranging from 10/s to 30/s and doubled cotton yarn ranging from 8 to 15 TPI. The installed capacity is 25,856 spindles for cotton spinning and 2,304 spindles for doubling.

Farming Business:

This comprises different parcels of land mainly located at Jhang division nearby our manufacturing facilities. Total area under cultivation is over 3000 acres of which nearly 1,600 acres is owned land and rest is leased. The main crops include Sugarcane, Wheat, Gram, Maize, Fodder and seasonal vegetables. A dairy farm located at Jhang with a herd of 200 milking and fattening cattle. A small herd of he sheep around 50 in number for fattening purpose has also been developed and this would be further enhanced around 200.

Business Vision and Strategy:

Shakarganj's vision is to create country's leading renewable ingredients business. We aim to achieve this by building a consistent portfolio of distinctive, profitable, high-value solutions in products and services for our customers. Shakarganj is committed to provide long-term value for our shareholders. Our strategy is to build a stronger value added business with a low-cost commodity base.

We focus on five key business objectives to deliver consistent growth.

- Serve our Customers:

Delivering excellent customer service is at the core of everything we do. Our aim is to be the partner of choice in our customers' processes and to help them develop more successful consumer products.

- Operate Efficiently and Safely:

We aim to be the lowest-cost and most efficient producer in all our markets. Through our expertise in high-volume process management, our focus is on technical and manufacturing excellence and the efficient use of services such as logistics and utilities. We are continually working to improve operational efficiency and strive to ensure safe and healthy conditions for everyone at our sites

- Invest in Long Term Assets and Partnerships:

We continually evaluate investment opportunities that would add strategic value by enabling us to enter new markets or add products, technologies and knowledge more efficiently than we could organically. We also aim to grow our business by forming joint ventures and partnerships to enhance the capabilities of our existing product portfolio. Using alliances and joint ventures can be an efficient way to lower our cost of investing in new areas and markets, and will help secure access to new and complementary technology and expertise.

- Invest in Technology and People:

We are investing in our research and development capabilities to help us in developing innovative solutions that meet our customers' product challenges. We are also complementing our own capabilities through business and technology partnerships, and university collaborations. To develop talent, improve leadership and help our employees succeed, we operate various programs designed to ensure the right skills at all levels to grow our business.

- Grow the Contribution from Value Added Products:

We are committed to grow the contribution from our value added products. Value added products utilize technology and intellectual property enabling us to obtain a price premium and/or sustainable higher margins.

CHIEF EXECUTIVE REVIEW

Dear Shakarganj Shareholder

I am pleased to present the financial statements of your company for the six months ended 31st March 2011. These financial statements were subject to a limited scope review by the auditors A. F Ferguson & Co. and their report is attached to the financial statements.

The following paragraphs give a review of financial and operating performance of the company.

Overall Financial and Operational Performance

Despite the economic challenges, the Company's profit from operations for first half of Fiscal 2011 stood at Rs. 669.84 million as compared to Rs. 193.31 million for the corresponding periods last year with substantial contribution coming from the Sugar Segment. After tax profit from both continuing and discontinued operations was Rs. 303.11 million as compared to net loss of Rs. 746.42 million for the corresponding period last year. Overall earnings per share for the period under review have significantly improved to Rs. 4.36 as compared to negative earnings per share of Rs. 10.74 in the corresponding period last year.

During the first half of Fiscal 2011, almost all key performance indicators have shown improvements compared to the corresponding period last year, especially relating to our core business activities. The following paragraphs give the review of operating performance of various divisions of the company:

Sugar Division

As anticipated, this was comparatively better season and despite a 25 percent increase in the minimum support price of sugarcane from Rs. 100 to Rs. 125 per 40 kg, profit margins improved due to a rise in average selling price. The company was able to achieve 70% higher crushing as compared to corresponding period in the last year.

Sales revenue of the Sugar Division stood at Rs. 6,677 million compared to Rs. 3,904 million in the corresponding period. The gross profit margin for the period under review was improved to 7.86% as compared to previous period's margin of 5.54%.

The sugarcane-crushing season started on November 24, 2010 and sugar production up to March 31, 2011 was 139,438 tons at a recovery rate of 9.00%, from two sugar units, against production of 78,540 tons at a recovery rate of 8.62% from three sugar units in first half of last year. Sugarcane crushed during the current period was 1,552,750 tons against 913,271 tons in first half of last year.

Operating expenses were Rs. 126.85 million as compared to Rs. 95.06 million in corresponding period of last year. The expenses were increased due to higher operating activities during the current period.

Operating profit from our sugar operations increased to Rs. 398.02 million from Rs. 121.19 million last year. This was mainly due to better crushing and increase in average selling prices.

Ethanol and Alternate Energy Business

Sales revenue from ethanol stood at Rs. 922.52 million compared to Rs. 309.75 million in corresponding period of last year with the gross profit margin increasing to 24.94% from 11.46%. The Ethanol Division produced 25.00 million liters in the period under review compared to 15.30 million liters in 2010.

Operating expenses stood at Rs. 99.39 million for the first half, compared to Rs. 42.46 million in the corresponding period. Operating expenses increased due to the higher level of activities. Due to higher production and exports during the period, this division achieved a profit of Rs. 130.72 million as compared to an operating loss of Rs. 6.96 million during the corresponding period.

Sales revenue of the Power Division stood at Rs 86.07 million with a gross profit of Rs. 6.88 million and operating profit of Rs. 5.57 million respectively.

Building Materials Division

Sales revenue of the Building Materials Division stood at Rs. 20.73 million compared to Rs. 24.03 million in the corresponding period of 2010. The Building Material Division production performance remained satisfactory as production during the period was 3,548 cubic meters compared to 2,338 cubic meters in the same period of last year.

Operating expenses stood at Rs. 0.45 million for the current period compared to Rs. 0.65 million in the corresponding period. Operating profit stood at Rs. 1.91 as compared to Rs. 2.61 million in same period of last year.

Textile Division

Sales revenue of the Textile Division was Rs. 1,107.99 million in the first half compared to Rs. 640.61 million in the corresponding period of 2010 with the gross profit margin of 2.15% as compared to gross profit of 2.74% in corresponding period.

Overall production in the current period was 71,761 bags against 76,811 bags in the corresponding period. Actual production in 20's converted was 75,155 bags (7,515,100 lbs). During the current period the single yarn processed at the doubling plant was 23,796 bags compared to 31,912 bags in the corresponding period.

Operating expenses stood at Rs. 12.80 million for the current period compared to Rs. 12.65 million in the corresponding period. There was an increase in operating profit which stood at Rs. 11.01 million against operating profit of Rs. 4.91 million in the corresponding period.

Future Outlook

The management has taken various steps to steer the company back towards profitability and a major debt re-profiling exercise has been undertaken to relieve the liquidity and debt servicing pressure on the company financials as mentioned in Note 1.2 of enclosed condensed interim financial information. As anticipated in the annual directors' report, we have so for been able to post positive results and the continuity of company as a going concern as mentioned in directors' report would be beyond any doubt. During the first half, almost all the key performance indicators have shown improvements especially relating to our core business activities. The management is confident of continuity of improvements in the remaining part of the year with special concentration on Ethanol and Alternate Energy Business and we hope for positive results at the end of the year. The results of our Textile Division are positive as well. We are expecting a bumper sugarcane crop in the next year and insha'Allah the results will improve further in the coming year.

AUDITORS' REPORT TO THE MEMBERS ON REVIEW OF INTERIM FINANCIAL INFORMATION

Introduction

We have reviewed the accompanying condensed interim balance sheet of Shakarganj Mills Limited (here-in-after referred to as the "Company") as at March 31, 2011 and the related condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim cash flow statement and condensed interim statement of changes in equity for the half year then ended (here-in-after referred to as the "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with approved accounting standards as applicable in Pakistan. Our responsibility is to express a conclusion on this interim financial information based on our review. The figures of the condensed interim profit and loss account and condensed interim statement of comprehensive income for the quarters ended March 31, 2011 and 2010 have not been reviewed, as we are required to review only the cumulative figures for the half year ended March 31, 2011.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying interim financial information as of and for the half year ended March 31, 2011 is not prepared, in all material respects, in accordance with approved accounting standards as applicable in Pakistan.

Without qualifying our opinion, we draw attention to note 1.2 to the interim financial information which indicates that the current liabilities of the Company have exceeded its current assets by Rs 3,429.036 million and the equity stands at a negative balance of Rs 904.853 million.

These conditions along with other matters as set forth in note 1.2 indicate the existence of a material uncertainty that may cast significant doubt about the company's ability to continue as a going concern.

The interim financial information does not include any adjustments relating to the realisation of the company's assets and liquidation of any liabilities that may be necessary should the company be unable to continue as a going concern.

The annexed notes 1 to 17 form an integral part of this condensed interim financial information.

Chief Executive

Chairman

1. The Company and its operations

1.1 The Company is incorporated in Pakistan and is listed on Karachi, Lahore and Islamabad Stock Exchanges. It is principally engaged in manufacture, purchase and sale of sugar, ethanol, building material, yarn and engaged in generation and sale of electricity. The company has its principal manufacturing facilities at Jhang and satellite manufacturing facilities at Bhone. The registered office of the company is situated in Lahore.

1.2 Going concern assumption

As at the reporting date, the current liabilities of the Company have exceeded its current assets by Rs 3,429 million, the equity has been eroded and stands at negative Rs 905 million. The Company has not been able to meet its obligations under various agreements for long term loans, lease financing and short term borrowings.

The Company had entered into agreements for a bridge finance facility of Rs 2,466 million and short term running finance facility of Rs 2,980 million from a consortium of its existing lenders providing short term and long term loans (except leasing companies and National Bank of Pakistan), which is repayable by June 2011 through sale of certain non-current assets of the Company and is interalia secured against :

- a pari passu charge over all present and future fixed assets of the company (excluding land and building);
- first mortgage/charge over immovable property of the company;
- personal guarantees of Mr. Anjum Saleem and Mr. Ahsan Saleem;
- pledge of shares in Shakarganj Food Products Limited; and
- lien on a special reserve account, where the proceeds from the sale of assets and a unit, if required, of the company will be deposited.

As per the terms of the agreement, the bridge finance was to be repaid through the sale of assets of the company, with an aggregate book value of approximately Rs 2,141.82 million, in installments and further injection of equity of Rs 300 million by June 2011.

The restructured short term running finance is secured against pledge of refined sugar at a margin. Additionally, the lenders will create a lien on a 'collection account' where proceeds from realization of receivables will be deposited.

The accrued markup is payable immediately.

The bridge finance facility and the consortium running finance facility were envisaged to be operational by April 2010. However, neither the bridge finance facility nor the consortium cash finance could become operative due to delays in obtaining No-objection certificate from the National Bank of Pakistan for creation of pari passu charge on assets against the above new facilities. Furthermore, the Company was also unable to liquidate all of the above mentioned assets as per the time lines identified in the bridge loan agreement which could be considered as contravention of the bridge finance facility, exposing the Company to penalties as referred in note 7 (iii).

The above conditions raise significant doubts on the Company's ability to continue as a going concern. However, the management is confident of the Company's ability to continue as a going concern based on its concerted effort to re-profile borrowings, sale of the non-current assets and utilization of improved liquidity in higher operational levels of cane crushing and ethanol manufacturing.

The steps taken by management up till now and planned in future are as follows:

The company sold entire assets of the Satellite division at Dargai Shah in December 2010 at an aggregate consideration of Rs 1,350 million subject to completion of certain legal formalities. Out of consideration of Rs 1,350 million, the company has received an amount of Rs 478 million whereas remaining amount of Rs 872 million has been transferred to an Escrow account with Silk Bank Limited (Escrow agent). The Escrow Agent will release the amount to members of bridge finance arrangement upon legal transfer of the property to the buyer for which it is persuing the lenders with existing charges on this property for release of such charges.

While the Bridge loan facility is not operative till the period end, however, the Company is confident that it will be able to obtain extension in the bridge loan from the consortium and consequently will be able to retire its over due loan installments and short term finances availed against now defunct facilities. Most of the consortium members of the bridge finance facility are already demanding markup based on the reduced rates given in bridge finance agreement.

In view of the delays in implementation of the bridge finance facility and consortium lenders' short term running finance facilities, the company has successfully negotiated with its lenders on bilateral terms and obtained short term finances during the year for working capital purposes resulting in significantly improved operational results. Furthermore, the company has been able to restructure substantial portion of its existing long term borrowings for relaxation in payment terms.

During the current period the Company also settled its lease liability of Rs 148.45 million to Meezan bank Limited for an amount of Rs 144.1 million, under a compromise agreement with the bank.

The condensed interim financial information have been prepared on a going concern basis based on the management's expectation that:

- the bridge loan will be disbursed and the dates for sale of assets extended by the consortium;
- the Company will successfully dispose off the identified assets at a profit to their carrying values;
- the lenders for long term loans will provide relief in payment terms; and
  the company will be able to utilize the liquidity generated through above restructuring/ rescheduling to increase its operations.

The condensed interim financial information consequently, do not include any adjustments relating to the realization of its assets and liquidation of any liabilities that might be necessary should the company be unable to continue as a going concern.

2. Statement of compliance

This condensed interim financial information is un-audited and is being submitted to the members as required by section 245 of the Companies Ordinance, 1984. The condensed interim financial information has been prepared in accordance with the requirements of the International Accounting Standard (IAS) 34 'Interim Financial Reporting' and have been reviewed by the auditors as required by the Code of Corporate Governance. The condensed interim financial information should be read in conjunction with the annual financial statements for the year ended September 30, 2010.

3. Significant Accounting Policies

Except as disclosed below, the accounting policies adopted for the preparation of this condensed interim financial information are the same as those applied in the preparation of preceding annual published financial statements of the company for the year ended September 30, 2010.

3.1 Standards and interpretations to existing standards that are effective and applicable to the Company

- IAS 1 (amendment), 'Presentation of financial statements' is effective from January 1, 2010. The amendment is part of the IASB's annual improvements project published in April 2009. The amendment provides clarification that the potential settlement of a liability by the issue of equity is not relevant to its classification as current or non current. By amending the definition of current liability, the amendment permits a liability to be classified as non-current (provided that the entity has an unconditional right to defer settlement by transfer of cash or other assets for at least 12 months after the accounting period) notwithstanding the fact that the entity could be required by the counterparty to settle in shares at any time. This amendment has no impact on Company's condensed interim financial statements.

IAS 7 (amendment), 'Statement of cash flows' is effective from July 1, 2010. The amendment provides clarification that only expenditure that results in a recognised asset in the balance sheet can be classified as a cash flow from investing activity. The clarification results in an improvement in the alignment of the classification of cash flows from investing activities in the cash flow statement and the presentation of recognised assets in the balance sheet. The application of the amendment does not affect the results or net assets of the Company.

IAS 36 (amendment), 'Impairment of assets', effective 1 January 2010. The amendment clarifies that the largest cash-generating unit (or group of units) to which goodwill should be allocated for the purposes of impairment testing is an operating segment, as defined by paragraph 5 of IFRS 8, ' Operating segments' (that is, before the aggregation of segments with similar economic characteristics). This amendment has no material impact on the Company's condensed interim financial information.

IAS 38 (amendment), 'Intangible assets', effective January 01, 2010. The amendment clarifies guidance in measuring the fair value of an intangible asset acquired in a business combination and permits the grouping of intangible assets as a single asset if each asset has similar useful economic lives. There is no impact of this amendment in the company's condensed interim financial information.

- IAS 39 (amendment); 'Cash flow hedge accounting' is effective from January 1, 2010. This amendment provides clarification when to recognize gains or losses on hedging instruments as a reclassification adjustments in a cash flow hedge of a forecast transaction that results subsequently in the recognition of a financial instrument. The amendment clarifies that gains or losses should be reclassified from equity to income statement in the period in which the hedged forecast cash flow affects income statement. The company has entered into a cross currency interest rate swap for syndicate term loan to hedge the possible adverse movements in interest rates. This hedging relationship does not meet the criteria of cash flow hedge, therefore there is no impact of this amendment on results of the company for the period.

- IFRS 5 (amendment), 'Non-current assets held for sale and discontinued operations'. The amendment clarifies that IFRS 5 specifies the disclosures required in respect of non-current assets (or disposal groups) classified as held for sale or discontinued operations. It also clarifies that the general requirement of IAS 1 still apply, in particular paragraph 15 (to achieve a fair presentation) and paragraph 125 (sources of estimation uncertainty) of IAS 1. Disclosures regarding company's assets held for sale and discontinued operations have been given in Note 11.

IFRIC 19, 'Extinguishing financial liabilities with equity instruments', effective 1 July 2010. The interpretation clarifies the accounting by an entity when the terms of a financial liability are renegotiated and result in the entity issuing equity instruments to a creditor of the entity to extinguish all or part of the financial liability (debt for equity swap). It requires a gain or loss to be recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued. If the fair value of the equity instruments issued cannot be reliably measured, the equity instruments should be measured to reflect the fair value of the financial liability extinguished. It does not have any impact on the Company's interim financial information.

3.2 Standards and interpretations to existing standards that are applicable to the company and not yet effective and have not been early adopted by the company

- IAS 1 (amendments), Clarifies that an entity will present an analysis of other comprehensive income for each component of equity, either in the statement of changes in equity or in the notes to the financial statements. This amendment is effective for periods beginning on or after January 01, 2011.

- IAS 12 (amendment); 'Income taxes on deferred tax'. This amendment introduces an exception to the existing principle for the measurement of deferred tax assets or liabilities arising on investment properties measure at fair value. As a result of the amendment, SIC 21, 'Income taxes - recovery of revalued non depreciable assets', will no longer apply to investment properties carried at fair value. The amendments also incorporate into IAS 12 the remaining guidance previously contained in SIC 21, which is withdrawn. It is not expected to have a material impact on company's financial statements.

- Revised IAS 24 (revised), 'Related party disclosures', issued in November 2009. It supersedes IAS 24, 'Related party disclosures', issued in 2003. IAS 24 (revised) is mandatory for periods beginning on or after January 01, 2011. Earlier application, in whole or in part, is permitted.

The revised standard clarifies and simplifies the definition of a related party and removes the requirement for government-related entities to disclose details of all transactions with the government and other government-related entities. The Company will apply the revised standard from January 01, 2011.

- Amendments to IFRS 7, 'Financial instruments: Disclosures' on derecognition is effective from July 1, 2011. These amendments are part of the IASBs comprehensive review of off balance sheet activities. The amendments will promote transparency in the reporting of transfer transactions and improve users' understanding of the risk exposures relating to transfers of financial assets and the effect of those risks on an entity's financial position, particularly those involving securitisation of financial asset.

IFRS 9, 'Financial instruments', issued in November 2009. This standard is the first step in the process to replace IAS 39, 'Financial instruments: recognition and measurement'. IFRS 9 introduces new requirements for classifying and measuring financial assets and is likely to affect the Company's accounting for its financial assets. The standard is not applicable until 1 January 2013 but is available for early adoption. The Company is yet to assess IFRS 9's full impact.

- IFRIC 14 (Amendment), 'Prepayments of a minimum funding requirement'. The amendments correct an unintended consequence of IFRIC 14, 'IAS 19 – The limit on a defined benefit asset, minimum funding requirements and their interaction'. Without the amendments, entities are not permitted to recognise as an asset some voluntary prepayments for minimum funding contributions. This was not intended when IFRIC 14 was issued, and the amendments correct this. The amendments are effective for annual periods beginning 1 January 2011. Earlier application is permitted. The amendments should be applied retrospectively to the earliest comparative period presented. The Company will apply these amendments for the financial reporting period commencing on 1 January 2011. It is not expected to have any impact on the Company's financial statements.

3.3 Change in accounting policy for investments in associates

The Company changed its accounting policy for investments in associates during the year ended September 30, 2010. Investments in associates are now being accounted for under the equity method. The change in accounting policy has been accounted for retrospectively in accordance with the requirements of IAS-8, "Accounting Policies, Changes in Accounting Estimates and Error", and accordingly comparative figures for profit and loss account, statement of comprehensive income, cash flow statement and statement of changes in equity have been restated. The effects of change in accounting policy on prior period condensed interim financial information has been summarized as follows:

	March 31, 2011
Decrease in net equity	(357,309)
Increase in loss for the half year	(21,381)
Decrease in opening balance of retained earnings	(340,393)
Decrease in earning per share - basic and diluted	(0.32)

4. Seasonality of operations

Due to seasonal nature of sugar segment lower operating profits are usually expected in the second half of the year than the first six months.

5. Taxation

The provision for taxation for the half year ended March 31, 2011 has been made on an estimated basis.

	Note	**March 31, 2011**	September 30, 2010
		(Rupees in thousand)	
6. Long term finances			
Opening balance		**2,736,067**	2,849,736
Add: Disbursements during the period		**-**	50,000
Add: Reclassified from short term to long term borrowings		**472,999**	171,000
Add: Effective interest on loans from Chief Executive and key management personnel		**3,104**	-
		3,212,170	3,070,736
Less: Repayments during the period		**(115,600)**	(334,669)
		3,096,570	2,736,067
Less: Current portion shown under current liabilities	6.1	**(2,489,940)**	(1,598,141)
		606,630	1,137,926

6.1 The aggregate current portion includes over-due installments of principal aggregating to Rs 332.337 million (September 30, 2010: Rs 307.484 million) and Rs 1,105.669 million (September 30, 2010: Rs 199.920 million) representing principal installments that are repayable after period of one year, however have been reclassified as current portion, as the Company could not meet all the financial covenants of related borrowing agreements.

7. Contingencies and commitments

7.1 Contingencies

(i) The company has issued following guarantees:

Bank guarantee of Rs 6 million (September 30, 2010: Rs 9.552 million) in favour of Sui Northern Gas Pipelines Limited against performance of contracts.

Cross corporate guarantee in favour of Allied Bank Limited to secure long term finance facility availed by the Company's associate, Shakarganj Food Products Limited of Rs 467 million (September 30, 2010: Rs 467 million).

(ii) The Company has issued a post dated cheque in favour of the Collector of Customs against custom duty clearance in respect of import of plant and machinery amounting to Rs. 5.040 million (September 30, 2010: Rs 5.040 million).

(iii) As referred to in note 1.2, the Company entered into a bridge finance agreement with a consortium of banks for Rs 2,466 million to be repaid by 30 June, 2011 from the sale of assets, identified in the agreement. For reasons specified in the note 1.2, the bridge facility could not be released to the Company till the date of these financial statements. However, the Company is confident that this will become operative as it has complied with all significant conditions precedents contained in the bridge finance facility and is also confident that the timelines contained therein for sale of identified assets along with the repayment of the bridge loan will be extended. The Company has, in these financial statements, accrued markup based on the reduced rates contained in the bridge finance agreement on its respective borrowings to the tune of Rs 2,466 million. Had the markup been accrued at the terms of original agreements, it would have been higher by Rs 79.419 million (September 30, 2010: Rs 56 million) approximately. The Company, based on the foregoing ground, is however confident that the lenders will not demand markup as per original agreements.

Moreover, pending the implementation of bridge finance facility and finalisation of restructured terms of payments with all lenders, the Company has not recognised penalties of Rs 180 million approximately which may be leviable under the terms of the borrowing agreements including the bridge finance facility. None of the lenders has demanded any payment for the above referred penalties and the Company is confident that the bridge finance facility will become operational soon with a revised repayment plan and no penalty shall be levied by the lenders.

(iv) The Company sold its assets relating to the sugar manufacturing facility at Dargai Shah to M/s Hunza Sugar Mills Limited (HSML) through an 'Asset Sale Agreement' (ASA) dated December 3, 2010 for an aggregate consideration of Rs 1,350 million. Pursuant to the agreement, the Company has received Rs 478 million from the buyer, whereas the remaining Rs 872 million have been deposited with an Escrow Agent M/s Silk Bank Limited (SBL) under the terms of the ASA and the Escrow Agreement between the Company, HSML and SBL dated December 3, 2010. Physical possession of the Dargai Shah facility was handed over to HSML in December 2010.

For legal completion of the transaction, the Company is required to, amongst other requirements, obtain 'No Objection Certificates' (NOCs) from lenders with charge on assets of Dargai Shah facility and title documents of properties under possession of lenders on or before April 30, 2012, the 'Long Stop Date'. Failure of the Company to complete the legal aspects of the transactions before Long Stop Date will entitle the buyer, HSML, to terminate the agreement and demand full repayment alongwith usage charges.

The Company is confident that all legal formalities will be completed before the Long Stop Date.

7.2 Commitments

The company has the following commitments in respect of:

(i) Contracts for capital expenditure amounting to Rs 65.213 million (September 30, 2010: Rs 71.213 million) .

(ii) Contracts for acquisition of intangible (computer software) amounting to Rs. 20 million (September 30, 2010: Rs. 20 million).

(iii) Contracts for other than capital expenditures Rs 3.6 million (September 30, 2010: Rs. 1.3 million)

(iv) The amount of future payments under operating leases and the period in which these payments will become due are as follows:

	Note	**March 31, 2011**	September 30, 2010
		(Rupees in thousand)

(Loss) / earnings per share - basic	**Rupees**	**(0.39)**	(4.39)	**1.88**	(5.10)

13.2 Diluted earnings per share

Diluted earnings per share is calculated by adjusting the weighted average number of ordinary shares outstanding to assume conversion of all dilutive potential ordinary shares. The company has a commitment to convert 1,000 preference shares into 167 ordinary shares of Rs 10 each. For the purposes of computing the diluted EPS the convertible preference shares are assumed to have been converted into ordinary shares, and the loss is adjusted to eliminate the preference dividend.
